The groups do not open on bank holidays.

All groups are free. If you are pregnant or a breastfeeding mother who wants information, support, coffee or just a chat then please come along. Peer Supporters - local mothers who have breastfed their own baby and have been through a short training course to learn how to support new mothers - offer support, and easy access to breastfeeding counsellors. We also offer a library of books and videos for you to borrow. Some groups offer electric breastpump hire, as well as nursing bras, feeding pillows, and Doidy cups for sale.
