A guide to local breastfeeding
friendly establishments

Introduction

•This guide has been produced to:

Help women know where they are welcome to breastfeed their babies

Raise awareness of the needs of breastfed babies and their parents

Encourage local establishments to have a consistent helpful policy

The Royal Hampshire County Hospital Maternity Unit and Winchester NCT believe it is important to support women in breastfeeding when they are out with their babies. To this end we approached 46 local establishments to find out their views on breastfeeding. The following pages include places that have said that they welcome breastfeeding mothers. They were also asked if they have anywhere to breastfeed in private, if the mother so wishes, if the company has a written policy on breastfeeding and about baby changing facilities.

This guide is available in the NCT newsletter and will be handed out to all new mothers leaving the Royal Hampshire County Hospital
