### **NCT Broadcasters Request Form**

Thank you for contacting the NCT for assistance with your filming. The NCT is the UK's largest parenting charity. We have over 105,000 members through 320 branches nationwide. Each year the NCT provides antenatal classes for 65,000 expectant couples, and we reach over 1.4 million people through our website, helplines and services to enable people to become confident and well-prepared parents.

The NCT press office is in contact with members who are comfortable about sharing their birth or parenting experiences. We have access to specialists on pregnancy, labour and early parenthood. The charity produces a number of online communication tools and has quick access to members through e-zines, social networking and forums.

NCT supports programmes that support the charity's aims and objectives and show the realities of today's parenting in a constructive and ethical way.

If you would like the NCT to assist your filming request, please fill in the form below and return it to NCT press office at: [press@nct.org.uk](mailto:press@nct.org.uk).
